

Torrey Trahanovsky

Product Manager & Developer Evangelist

Redmond, WA | torrey@berkeley.edu | [linkedin.com/in/torrey-tnt](https://www.linkedin.com/in/torrey-tnt) | github.com/torreymicrosoft

PROFESSIONAL SUMMARY

Product Manager and Developer Evangelist bridging hardware, cloud, and AI, with 6+ years at Microsoft across Azure, Xbox, and Edge. Owns Bicep and Azure deployment experiences spanning PRDs, roadmap, go-to-market, IaC CI/CD, Azure Verified Modules, and GitHub Copilot scenarios. UC Berkeley M.S. in Data Science with applied AI/ML depth, plus hands-on firmware, device imaging, Kubernetes, and edge-device experience.

CORE SKILLS

Product: PRDs, roadmap, go-to-market, JTBD, telemetry and metrics, program management, NPI, manufacturing
Developer Evangelism: technical demos, public speaking, workshops, community content, developer education
Cloud & IaC: Azure, Bicep, Deployment Stacks, Terraform, Kubernetes, Docker, CI/CD, DevOps, Azure DevOps, Git, GitHub Copilot

AI / ML: Python, Pandas, TensorFlow, GANs, Computer Vision, NLP, Generative AI

Hardware & Edge: firmware, device imaging, Secure Core, edge devices, Azure Percept

EXPERIENCE

Microsoft

Jul 2020 to Present

Product Manager 2, Azure Core (Bicep and Deployments)

Mar 2026 to Present | Redmond, WA (Hybrid)

- Drive Bicep and Azure deployment experiences across deployment stacks, Azure Verified Modules with GitHub Copilot, IaC CI/CD, and the Azure Landing Zone accelerator.
- Own PRDs, roadmap, and go-to-market positioning for Azure infrastructure-as-code experiences.
- Presented Bicep content at Azure Infra Summit 2026 and the PowerShell + DevOps Global Summit, covering power-user patterns, deployment stacks, AVM with Copilot, and IaC CI/CD.
- Delivered a live GitHub Copilot agent-mode demo to a 3,500+ developer audience.

Technical Program Manager 2, Xbox Accessories

Aug 2024 to Apr 2026

- Shipped 15+ customization programs on time and on budget, reducing cost through scope and technical optimization.
- Drove manufacturing, milestone, and reliability improvements across Xbox accessories programs.
- Selected as lead, replacing a Senior, on an executive-sponsored project spanning 10+ cross-functional teams to improve accessory manufacturing.
- Onboarded new TPMs in Xbox China, supporting team ramp and global execution.

Product Manager 2 and Technical Program Manager 2, Azure (Arc and Edge)

Jul 2020 to Aug 2024

- Led full-lifecycle software, firmware, and hardware program management across Azure Edge Devices, Azure Light Edge, and Adaptive Cloud and Arc.
- Launched Azure Percept DK, a deployable Edge-AI dev kit with Azure Percept Studio, from concept (P0) to GA, announced at Microsoft Ignite, with 17+ localizations across 25+ countries.
- Owned UX and UI research for 50+ enterprise customers and the end-to-end launch of Azure Arc Site Manager across go-to-market, compliance, and privacy.
- Owned Azure Light Edge operating systems, device imaging, Kubernetes, and Secure Core security certifications for Linux and Windows; later led the retirement of Azure Percept DK, Audio, and Studio as a subject-matter expert.

Microsoft Student Partner (Apprenticeship)

Oct 2018 to Mar 2020

- Hosted 7+ technical workshops with 50+ attendees each at CMU, Pitt, and Chatham.
- Ran a 10-week GAN research project with Microsoft Boston PhD researchers through the Advanced Machine Learning Lab.
- Selected as 1 of 9 out of 200+ US Microsoft Student Partners invited to a Microsoft Ignite summit.

EARLIER EXPERIENCE

- **Citi, TTS Summer Analyst (Product Management, Cards), Hong Kong, Jun 2019 to Aug 2019.** Digitized forms across APAC (12 countries) and delivered a go-to-market project for a China mobile-wallet use case; sole non-MBA in the department to receive a return offer.
- **Google, Student Innovator (GCP and G-Suite for Education), via VACO SF, 2018 to 2019.** Top performer; built training that helped about 200 student innovators pursue GCP certifications.
- **Ingram Micro, Innovation Intern (Global IT), Jun 2018 to Aug 2018.** Inspired the CIO to launch a reverse-mentoring program and led a team mentoring 20+ senior IT staff worldwide.
- **Co-founder, Rollin (fintech side project), 2018 to 2021.** Won 4 pitch competitions and 2 incubators, raising \$20k+.

SPEAKING & EVANGELISM

- **Azure Infra Summit 2026:** presented as part of the Bicep team's five on-demand sessions covering power-user patterns, deployment stacks, Azure Verified Modules with GitHub Copilot, IaC CI/CD, the Azure Landing Zone accelerator, and a live Copilot agent-mode demo.
- **PowerShell + DevOps Global Summit 2026:** presented alongside the Bicep team's four sessions on the local-deploy Bicep extension, learning Bicep with AI, deployment stacks, and the state of IaC on Azure.
- Ongoing Bicep community content and demos for developer audiences.

EDUCATION

University of California, Berkeley, M.S. in Information and Data Science (MIDS)

Aug 2021 to Apr 2025 | GPA 3.83

- Coursework: Applied Machine Learning, Machine Learning at Scale, Natural Language Processing, Generative AI, Data Engineering, Statistics for Data Science.
- Capstone: AI Career Advisor, a generative-AI project.

University of Pittsburgh, B.S.B.A. in Supply Chain Management

Aug 2017 to Apr 2020 | GPA 3.7, Dean's List

- Graduated one year early; partial studies in Computer Science and Information Science; founded the Google Developer Student Club at Pitt.
