PROFESSIONAL EXPERIENCE

Microsoft

Jul-2020 to Current

Product Manager 2 - Azure Core - Engineering | Bicep & Deployments | Employee | Redmond, Washington, USA

- Product Manager on the Azure Deployments team driving **Bicep & Azure deployment experiences**: deployment stacks, AVM + Copilot, IaC CI/CD, and the ALZ accelerator.
- Drove **Bicep dev evangelism**: presented sessions at [Azure Infra Summit 2026](#) and the PowerShell + DevOps Global Summit (USA) covering deployment stacks, snapshots vs what-if, and a live Copilot agent-mode demo for a 3,500+ developer audience.

Program Manager 2 - Engineering | Xbox - Hardware | Employee | Redmond, Washington, USA

- Shipped **15+ Xbox Customization programs** on-time and in-budget, cutting **annual production costs** via technical optimization.
 - Streamlined in customization area via process, milestone, and manufacturing improvements enabling more programs with less resources/scope.
- Selected as lead, replacing a Senior level on an exec sponsored project for **10+ cross-functional teams** to improve manufacturing of accessories.
 - Delivered higher than expected refinements within 3-months on the project while owning "day job" of customization in Xbox.
- Onboarded new FTEs in TPM org in Xbox China via knowledge of manufacturing, tooling, and program management methodology.

Product Manager 2 - Engineering | Azure Arc - Software/Cloud | Employee | Various Locations, USA

- Owned as lead PM a **Senior-level** CI/CD & Security cloud product end-to-end (pre-GA / preview)
 - Had 0.5 junior dev, 1 lead dev, and 2 architects resourced for program, taking PRD and product through funding/resourcing, POC, & MVP.
 - Owned all UX/UI research and Figma with 1x researcher & designer for 50+ corporate customers from Edge OT/IT, Corp OT/IT, & Compliance
- Owned the end-to-end product launch (PLR) and development of [Azure Arc site manager](#) including go to market, compliance, and privacy reviews.

Product Manager 2 - Engineering | Azure Light Edge (ALE) - Hardware/Firmware/Software/Cloud | Employee | Various Locations, USA

- Owned [Azure Percept DK](#) & [IoT Config Tool V2](#) plus another confidential Edge-market product (pre-GA / preview)
- Owned an **ASUS firmware release** for Percept DK end-to-end as sole PM, from partner engineering through validation and ship
 - Drove full product definition and delivery with Devs/TPMs: PRD, use cases (JTBD), costing, GTM, telemetry & metrics, and launch criteria
- PM'd the [retirement](#) of Azure Percept DK, Audio, Studio, and supporting services alongside an additional 3 products due to becoming a SME

Program Manager - Engineering | Azure Edge Devices (AED) - Hardware/Software/Firmware | Employee | Redmond, Washington, USA

- Launch team for [Azure Percept DK](#) (Edge AI DevKit + Studio) from **concept (P0) to launch (GA)** ([TechCrunch](#))
- Owned programs on ~5 various hardware and software oriented projects through EV, DV, PV, MP, NPI & Sustain.
- Rework processes; Cost-downs; ~17+ localizations in 25+ countries; Managing Private Previews and Public Previews

PORTFOLIO & SIDE PROJECTS

- [Full portfolio](#) (live on Azure) - dependency-free static site, auto-deployed on every git push. Self-built apps:
- [PTO Runway](#) - vacation-balance planner • [Career Coach](#) - private in-browser job-search toolkit • [EmberFI](#) - FIRE calculator • [Wealth Runway](#) - net-worth & runway tracker • [Task Orbit](#) - keyboard-first task manager & credit-card maximizer • [Longevity Maxer](#) - longevity & healthspan tool

EDUCATION
